* Sonic enhancements to listening experience according to mode

1 Choose a location for the Soundscape

A Tabletop

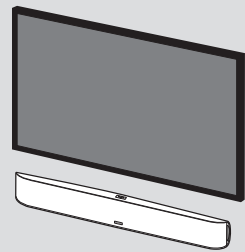

Place the Soundscape on a flat table surface.

ACTION REQUIRED, ONCE SOUNSCAPE IS CONNECTED: When installing your Soundscape on a flat surface (shelf or credenza) you must leave the feet attached for stability and for best results you should adjust the unit's equalization and voicing to make sure you achieve the best sound possible for the location. Use the Soundscape's Menu System to choose: **INSTAL > ON.SHELF.**

OR

B Wall-Mounted

ATTENTION: Refer to Owner's Manual for Wall-Mounting Instructions.

ACTION REQUIRED, ONCE SOUNSCAPE IS CONNECTED: When mounting Soundscape on the wall for best results, you should adjust the unit's equalization and voicing to make sure you are achieving the best sound possible for the location. Use the Soundscape's menu system to choose **INSTAL > ON WALL.** Remove feet, if desired, before wall mounting.

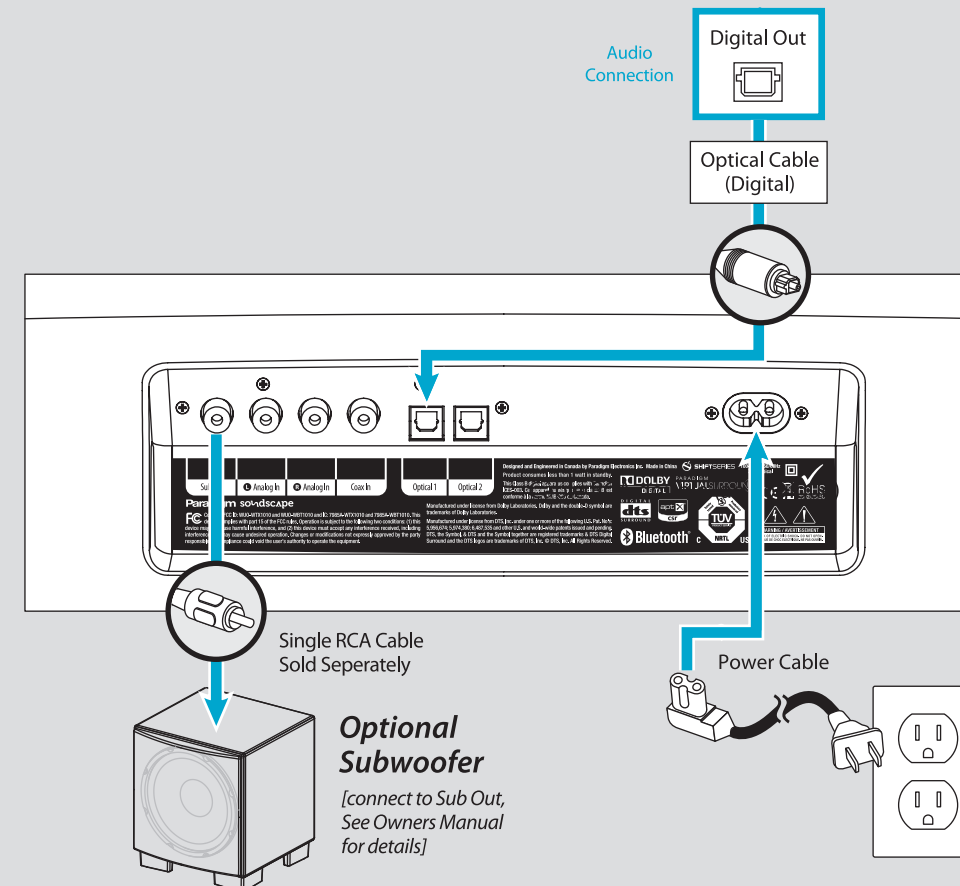

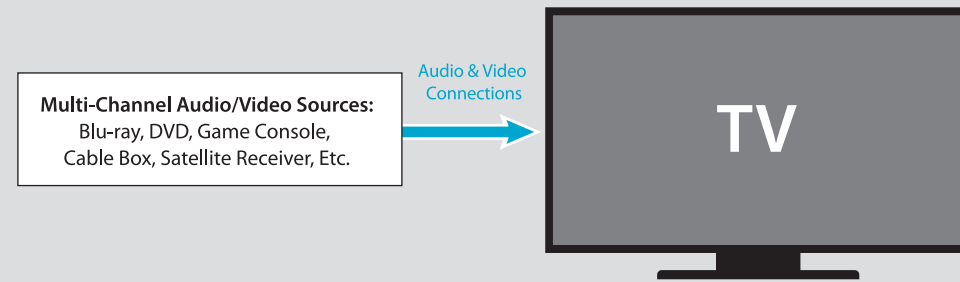

2 Connections

Choose your connections option ...

A External Components: Connect Audio & Video Connections to TV. TV: Connect Audio Connections to Soundscape (Recommended)

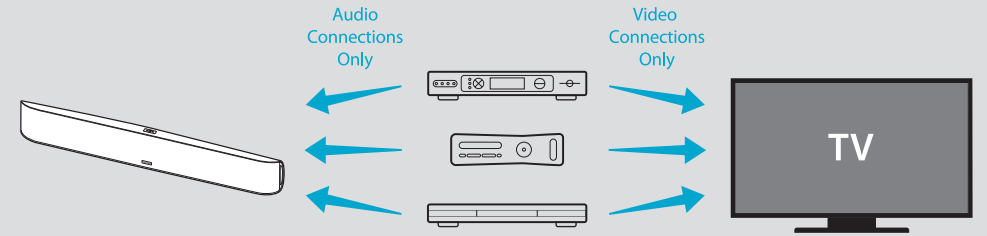

Connect your external components (cable box, dvd player, etc.) audio and video connections to your TV. Connect your TV's audio connections to your Soundscape.

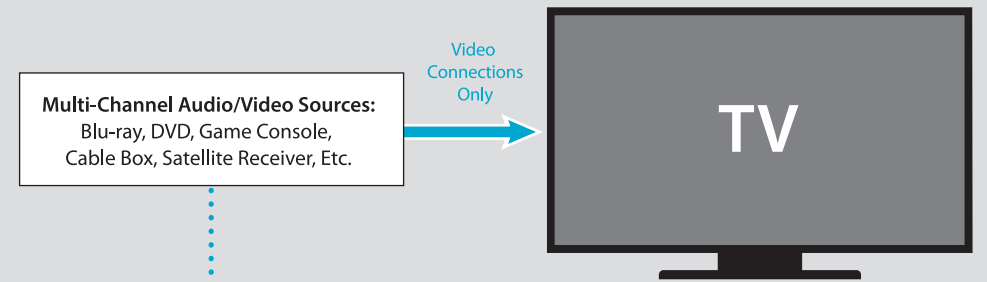

OR

B External Components: Connect Audio Connections to Soundscape & Video Connections to TV

Connect your external components (cable box, Blu-ray player, dvd player, etc.) audio connections to your Soundscape and the video connections to your TV.

Choose Audio Connection:
